Pilates strengthens the body, with an emphasis on core strength. Similar to Yoga, Pilates concentrates on posture, balance and flexibility. In Pilates the chance of injury is much lower than with other more strenuous forms of exercise. Pilates also focuses on the mind-body connection. While doing the various exercises your mind needs to be constantly aware of your breathing and the way your body moves.

Tai Chi (TIE-CHEE) is an excellent way to reduce stress. Originally developed for self-defence, Tai Chi has evolved into a graceful form of exercise that's now used for stress reduction and a variety of other health conditions. Often described as meditation in motion, tai chi promotes serenity through gentle, flowing movements.
